Work History

Starr Tincup Fort Worth, Texas

Creative Director
08/05 – 01/09

During my time at Starr Tincup I was able to fine-tune my creative skills and expand my marketing knowledge to levels I had never thought possible. Throughout my tenure with the firm, I was able to experience a number of roles and responsibilities ranging from graphic designer to account manager. Whether it be developing brand identities or creating yearly marketing plans, my track record is proven.

JoeGalvan.net Dallas, Texas

Creative Director
08/04 - Present

Due to an influx of referral-based clientele, I developed JoeGalvan.net for prospective clients to network and contact me about possible collaborations. Though most of my time over the past few years has been spent focused on other initiatives, I've still been lucky enough to sneak in client work here and there. This type of work has varied from web development and brand identity, all the way to jewelry design.

Window Fashion Professionals Carrollton, Texas

Graphic Designer
12/04 - 05/05

I was contracted to head up the launch of the "Gotcha Covered Blinds" website and brand. Though the launch was my primary focus, I was able to assist the design team conceptualize and produce original designs for our franchisee's. Due to the unique needs of each franchisee, this work varied from day to day and included branding, promotional item design, vehicle wraps, printed collateral materials and much more.
